STATION BUILDING IN

An up-to-date four-storeyed reinforced concrete building, estimated to cost \$140,000, with the first floor so constructed as to easily take the load of the superstructure in case of its collapsing during a bombing raid, is in the course of construction on the site bounded by Hennessy Road, Lockhart Road, and Canal Road East.

When completed, in August or September, the Eastern Fire Station—as it will be called—will be a worthy addition to the Hongkong Fire Brigade and, with its equipment, will be able to fully cope with all fires in the eastern district.

Kwangtung Progressing In Reconstruction

Despite the continuance of the war and in face of seemingly insurmountable difficulties, much progress was made in reconstruction in Kwangtung last year, according to information from the Provincial Government quarters.

Agriculturally, efforts were concentrated on striving for selfsufficiency in food supp'y. To increase production, three measures were adopted, namely, extensive use of superior-quality seeds, expansion of cultivation in winter, and encouragement of reclamation of undeveloped land.
